

COLLAGE

Sound-absorbing notice-board

When the sound environment is of a poor standard and when the wall surfaces are needed to put up drawings, notes etc, COLLAGE by Akustikmiljö is the perfect solution. In many types of rooms it is necessary to tackle the sound problem where the actual source of the noise lies, which is often on a level where notice-boards are preferably placed. In pre-school environments where the children often represent the source of the noise, COLLAGE proves very efficient, as it breaks the sound waves quicker than can be expected from a normal sub-ceiling.

The all-round absorbent for nurseries, schools as well as offices. As standard, COLLAGE is available in white or black, but can be laminated with any fabric from the colour sheet.

COLLAGE is easily mounted in the belonging frame painted in white or black.

Sound-absorbing notice-board in an office.

NOV. 2009

Backside of frame, with keyhole suspension.

Designation

• "Akustikmiljö COLLAGE sound-absorbent notice-board with frame".

Art. No. 320011 Notice-board white/black 1200x600x50 mm

Art. No. 321011 Notice-board white/black 1200x1200x50 mm

Art. No. 322011 Notice-board white/black 2400x1200x50 mm

Art. No. 323011 Notice-board in colour with fabric 1200x600x50 mm

Art. No. 324011 Notice-board in colour with fabric 1200x1200x50 mm

Art. No. 325011 Notice-board in colour with fabric 2400x1200x50 mm

Fire-technical classification

With Akustikmiljö's standard surface the fire-technical requirements for surfaces class 1 against incombustible material (B-s1,d0) are fulfilled.

Acoustic qualities

Tests performed by the National Swedish Testing Institute (SP) according to ISO 354 and ISO 11654.
