Round: Art. No. 235001
Square: Art. No. 235005
Rectangular: Art. No. 235010

Plastic pads, white, round, with laminated felt, for nailing onto wooden chairs. With diameter 18-37 mm. **Art. No. 240001**

Absorbents mounted under chairs and tables. Made to measure.

Absorbents figure-sawed as clouds. Size 1000x700x50 mm.

Cloud equilateral: Art. No. 550100
Cloud unequal-sided: Art. No. 550200

NOV. 2009

Main profile L = 3600 mm. T-24.
Art. No. 100330

Cross profile L = 1200 mm. T-24. **Art. No. 100321**
Cross profile L = 600 mm. T-24. **Art. No. 100320**

Wall moulding L = 3000 mm. T-24. 19x19 mm.
Art. No. 100340

U-moulding 19 mm. **Art. No. 100376**
U-moulding 40 mm. **Art. No. 100377**
U-moulding 50 mm. **Art. No. 100378**
U-moulding 80 mm. **Art. No. 100380**
U-moulding 100 mm. **Art. No. 100379**

Pendulum 180-300 mm. **Art. No. 811011**
Pendulum 300-600 mm. **Art. No. 811012**
Pendulum 600-1000 mm. **Art. No. 811013**

Direct attachment 50 mm. **Art. No. 100701**
Direct attachment 80 mm. **Art. No. 100702**
Direct attachment 100 mm. **Art. No. 100703**
Direct attachment 150 mm. **Art. No. 100704**

Akustikmiljö was started in 1996 and today represents one of the leading companies within acoustics. Akustikmiljö's business concept is to design sound-improving solutions aimed for anything from modern settings designed by architects and music studios to K-labelled (under national protection) seventeen century buildings. Akustikmiljö's head office and production plant are found in Falkenberg, Sweden, and we deliver solutions to a number of countries all over Scandinavia and parts of Europe.
